ecosur provides GHG Audit and Offset services to EADS

ecosur is pleased to announce the signature of a contract with EADS for the supplying of Greenhouse Gas (GHG) Audit and Offset services related to the group's Annual Shareholders Meeting held in Amsterdam (May, 2009).

ecosur will design, on behalf of EADS, an integrated strategy to calculate and offset the GHG emissions generated by the organization and holding session of this event. The assignment scope covers the strategy conception and execution. The whole process has been outsourced to **ecosur** with one aim: turn the General Assembly towards a low carbon event.

The greenhouse gas assessment will be performed according to the Bilan Carbone® and the GHG Protocol methodologies. The scope of work covers the associated emissions of the following items: energy use and cooling process in the conference room, freight, passenger travel, inputs, waste, capital assets, and event preparation.

The carbon credits to be purchased are verified by TUV NORD according to the Voluntary Carbon Standard (VCS) Version 1. The selected methane capture project complies with a Kyoto JI methodology. Credits will be retired by the VCS Registry Administrator - Bank of New York Mellon.

EADS' carbon neutral initiative will be also be reported under the Global Compact Initiative and EADS Annual Sustainable Development Report.

ecosur operates in carbon markets worldwide. The company provides advisory and brokerage services for all market segments (CDM, JI, voluntary) and all carbon related products (CERs / ERUs / VERs / EUAs). To date, **ecosur** settled 214 M. EUR of carbon related transactions and contracted 31 CDM and VER projects. All services provided are based on in-house expertise.

EADS is a global leader in aerospace, defence and related services. In 2008, EADS generated revenues of € 43.3 billion and employed a workforce of about 118,000. The Group includes Airbus as the leading manufacturer of commercial aircraft, with Airbus Military covering tanker, transport and mission aircraft, Eurocopter as the world's largest helicopter supplier and EADS Astrium, the European leader in space programmes from Ariane to Galileo.
